

## A more inclusive approach to module delivery and assessment

Hector

Hector.Archila@uwe.ac.uk

Clare

Clare.Davidson@uwe.ac.uk

# 1. The plan for today's 'lectorial'

What is a lectorial?!

Time	Activity
1:40-1:45 pm	1. INTRO & PLAN FOR THE SESSION
1:45-1:55 pm	2. BREAKOUT ROOM – Browse Xerte
1:55- 2:25 pm	3. DISCUSSION – Module Structure
	4. DISCUSSION – Methods of Delivery
	5. DISCUSSION – Assessment Strategy
	6. DISCUSSION – Teaching Tools and Technolgies
2:25- 2:35 pm	7. FAQs
2:35- 2:40 pm	8. QUALTRICS SURVEY

# 1. The plan for today's 'lectorial'

## **We are going to discuss:**

- A. Module Structure
- B. Methods of Delivery – Pre/ During /Post COVID
- C. Assessment Strategy
- D. Teaching Tools and Technologies – Interactive teaching approaches

## **We are also going to discuss:**

- Lectorial classroom Approach
- Inclusivity/ Accessibility
- Attainment/ Awarding Gap
- Student Feedback/ Strengths and Weaknesses

# So, what is a Lectorial ???

Try it!

Go to Menti.com

Enter the code: **5994 5904**

<https://www.menti.com/adpcwqs3uj>

# So, what is a Lectorial ???

Lectures  
+  
Tutorials  
= **Lectorials**

- Focus on key messages;
- Discuss Case studies/tasks & check students' understanding;
- Tackle key questions with ALL students during the 'Lectorial' time.
- Reinforce during Seminars (tasks)

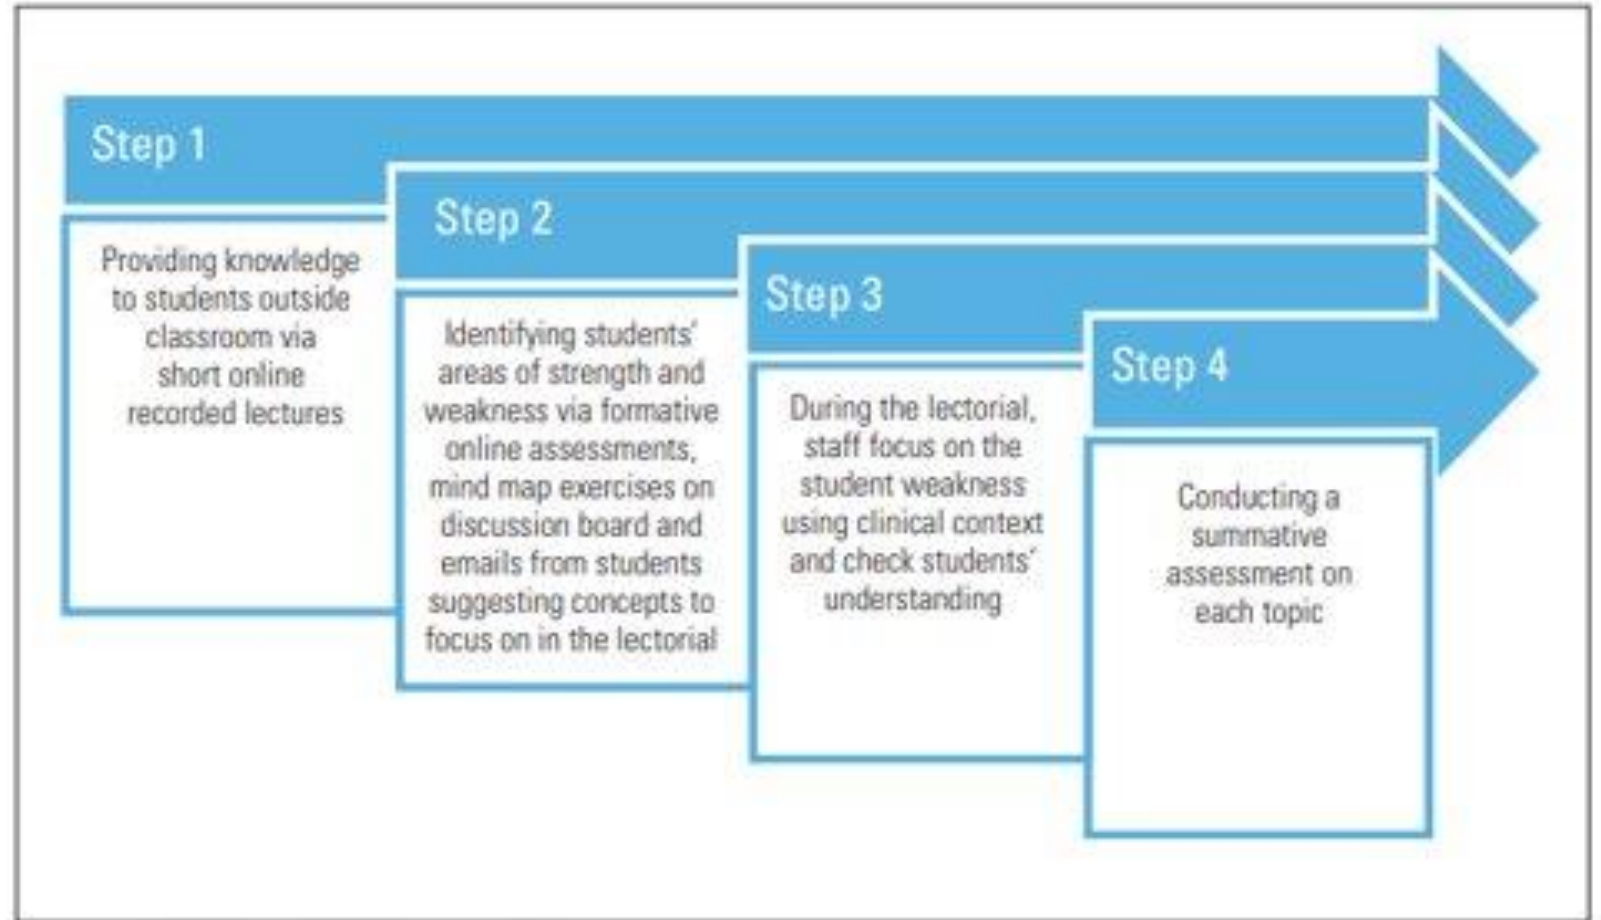

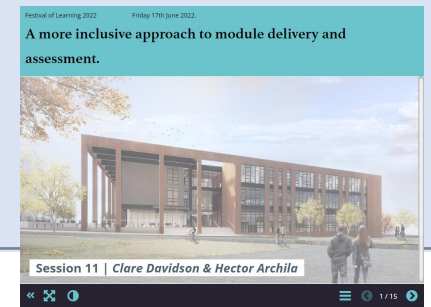

Figure - Steps in developing Lectorials by Thalluri and Penman (2018)

## 2. Breakout Room

- **Please check this session's Xerte and discuss in your groups (Breakout room) what were the...**

Group 1: Module Structure

Group 2: Methods of Delivery

Group 3: Assessment Strategy

Group 4: Teaching tools & Technology

Link to Xerte: [https://xerte.uwe.ac.uk/play\\_5884](https://xerte.uwe.ac.uk/play_5884)

## 2. Breakout rooms

A method used during COVID, when all teaching was online

We will split you into 4 different groups and give you 10 minutes to review the Xerte object and discuss or note down something relating to the four following categories:

1. Module Structure
2. Methods of Delivery
3. Assessment Strategy
4. Teaching Tools and Technologies

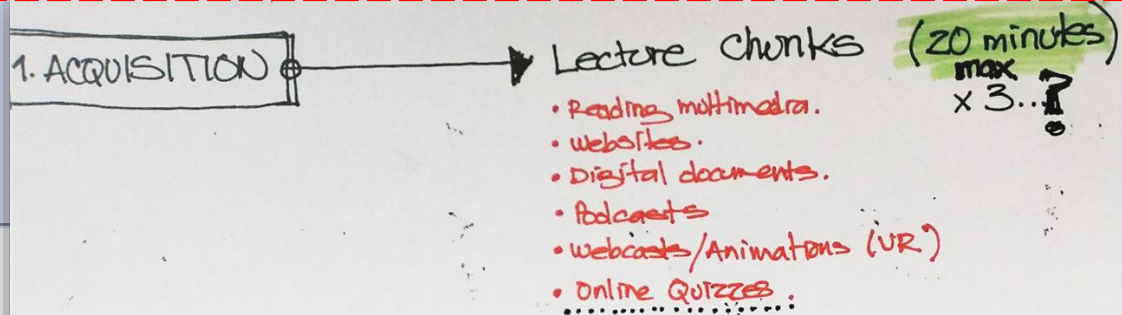

You have  
10 minutes

We will ask you to present to others in 10 minutes when we return.

Please nominate a spokesperson.

# Diana Laurillard's Six Learning Types...

- ✓ Merging Lectures with Tutorials = **Lectorials**  
Tackle key questions with ALL students during the 'Lecture' time
- ✓ Flipped classroom > Recorded Lectures
- ✓ Tutorials > Seminars = practice/reinforcement/discussion
- ✓ Online regular Quizzes & Seminar Tasks
- ✓ Working together, co-creating and sharing leadership with my module's teams...!

# 'Flipped Classroom' Approach

- Pre-recorded lecture – Using Xerte objects

Festival of Learning 2022 Friday 17th June 2022.

**A more inclusive approach to module delivery and assessment.**

# 3. Module Structure

# Construction Technology and Services 1

Taken by:

- BSc Building Surveying
- BSc Quantity Surveying and Commercial Management
- BSc Architectural Technology and Design
- BEng Building Services Engineering
- BSc Construction Project Management

- Full time/ Part time
  - Apprenticeship students
- 2021/22 Approx. 180 students

# Engagement & 'MyEngagement'

Table 2 Indicative study hours

Teaching / Learning Description:	Hours
Lectures - self-directed learning	30
Lectorials - directed learning	30
Seminars - scheduled learning	30
Field trips/ Study Visits (TBC)	
Summative Assessment – Quiz revision + tutorial tasks	60
Summative Assessment – Coursework preparation + completion	40
Directed Independent Learning	55
Self-Directed Independent Learning	55
<b>Total</b>	<b>300 hours</b>

Calculated using:

- Blackboard use
- Online sessions
- Panopto use
- Library use/ Reading list
- Logging in with UWE ID
- Submitting work
- MyAttendance

5-6pm		Submit by 5pm			Quiz Released 5pm
6-7pm		Lecture Released			
7-8pm					

# Module Delivery – the structure we proposed and 'defended'

## 'Multi-modal'

Lecture Released

Pre-recorded Xerte (approx. 2 hours to complete)

Released 1 week prior to the live lectorial (Tues)

**Includes further reading**

Includes a Menti for questions

Lectorial

1 ½ hrs Face-to-face

Reinforces the lecture material (often using in-session tasks)

Assigns and peer reviews a weekly task (due Mon/Tues)

Seminar & PAL

½ hour with tutor  
1 hour with PAL  
Face-to-face

Time assigned to completing the weekly task (& questions)

Multiple choice quiz with 10 randomised questions

Released every 2 weeks on key topics

Available for 7 days

Quiz Released

## Announcements

**Welcome to Construction Technology and Services 1!**

Posted on: Friday, 1 October 2021 10:41:58 o'clock BST

Welcome everyone!

Well done to those of you that have registered AND have received this e-mail - that's a sign that you are receiving and checking your UWE e-mails! We hope that you have enjoyed your Induction weeks and that you have begun settling in to UWE. To those of you who are returning to UWE, welcome back!

We are your Module Leaders for this large first year module and we would like to introduce you to the first of our 1-2-3 announcements.

### 1 - Main Announcement

Most of the information for this module is now live on this Blackboard page. You will be able to view the Module Handbook, the Schedule for this first Autumn term, the Module Team details and the first Tutorial Booklet - your 'bible' for the first term! Please surf through the documents at your leisure, over the coming days.

### 2 - Your module Introduction

We will all be meeting as a group on **Tuesday 5th October from 4-6pm in room 2D067** - as per your timetables (hopefully!). The module team; including our PAL leaders, are looking forward to meeting you all in person, where we will introduce the module, distribute some material and give you a 'taster' of what to expect in this module. We are hoping to record this session for those that cannot attend and the recording will be saved in the Learning Materials folder on Blackboard. Please arrive on time and please wear your masks, wherever possible. Bring pens, notebooks, laptops etc... Remember to keep checking your UWE e-mails and your timetables, for any last minute announcements/ changes.

### 3 - In Advance...

Construction Technology and Services 1 Tuesday 14th December 2021

### Q: Wall Details - New terminology

What is a.....?

A small opening b can be opened to

- Cavity Closer
- Cavity Tray
- Vertical dpc
- Drip
- Trickle vent

23 / 25

Construction Technology and Services 1 Tuesday 14th December 2021

### Technical Details

The document on the right contains three pages of standard manufacturer details for 'Rationale' windows, suitable for houses up to and including Passivhaus standards. The document contains a typical head, sill and jamb detail.

Take a look at the details and seek to identify some of the elements introduced in this lecture; lintels, cills, fixing plates, cavity closers, dpc, airtightness membrane

Open PDF

00:00

Construction Technology and Services 1 Tuesday 14th December 2021

### Q: Modern Lintel Provision

Pressed steel lintels are usually \_\_\_\_\_ from the inside to the outside face and because steel is \_\_\_\_\_ to water, the lintel effectively already incorporates a dpc, but it is advisable to still use a shaped \_\_\_\_\_ above them. \_\_\_\_\_ must be installed in the masonry joints above the lintel, to allow the water to drain out.

The hollow centre of these lintels is generally filled with a material which has a high \_\_\_\_\_ in an attempt to eliminate any \_\_\_\_\_ at the head of the opening.

Weep holes steel lintels impervious loadbearing cavity tray

heavier cold bridge blockwork conduct heat thermal insulation value

substrate precast concrete lintels sloped

The 'I don't get it' board

The screenshot shows a browser window with the URL `xerte.uwe.ac.uk/preview_2781#page4`. The page title is "Menti - 'I don't get it' Board - Construction Technology and Services 1". The content includes a teal header with the course name and date, a main title "Menti - 'I don't get it' Board", and a text box asking for feedback. A large button labeled "Open Q&A" is prominent, along with a "Finish" button. The UWE Bristol logo is visible in the top right. The bottom of the screen shows a navigation bar with icons for back, forward, and search, and a page indicator "4 / 25".

# Student Feedback - Strengths

**'Pre-recorded lectures are good because you can watch them when it suits you, and everybody has different needs, personal timetables and engagements. You can also pause, rewind and write comprehensive notes. You can't do this in a lecture theatre.'** 2021

**'The Quizzes are well laid out and easy to follow.** There is an easy to follow lecture schedule. Materials are well organised and easy to find on blackboard (very accessible). The coursework is better than having an assessment.' 2022

**'The tasks work well - they are enjoyable** and I feel like I learn a lot from doing them.' 2022

**'The pre-recorded lectures are well organised,** slightly long, but organised.' 2021

**'I like the 1-on-1 feel that I get within the seminars,** the small groups allow for more personal learning. Easier to ask questions etc.' 2022

**'The lectures are structured** so you know exactly what to expect out of them which I liked. Also, the module handbook was very clear, more so than my other modules.' 2021

# Student Feedback - Weaknesses

'We have received no **guidance or help on referencing** and the university guide is not helpful for beginners. It should give more examples and precedents. It is difficult to understand which type of document I am trying to reference.' *2021*

'I think the lecturers sometimes assume that students have **access to software or printers/scanners** that they do not, I think it would be beneficial to introduce all the useful software and apps required for tasks during an earlier session.' *2021*

'I think the weekly tutorials would have been better used discussing the topic as a group, as the breakout groups didn't work.' *2021*

'Often **recorded lectures would take significantly longer than the 2 hours** that a lecture should take to complete.' *2021*

'Tasks to be categorised and given **marks awarded according to their difficulty/time** required to complete. As some take may take minutes and others several hours yet all have an equal weighting.' *2022*

# The future...

**Building together (sharing practice)**

**Engaging different learning styles/types**

**A lot of preparation...!**

**New & Relevant Lectorial Exercises!**

**Work in progress, improving delivery, etc**

# Thanks!

Hector
