

# A World on Fire': What Contribution can Psychotherapy Research Make (if any) to Addressing Contemporary Global Challenges

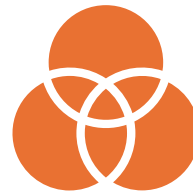

Does one-size-fit-all? Considering individual and contextual factors in  
psychotherapy research

Eva Fragkiadaki, University of the West of England

# Issues to consider

One-size-fits-all?

Exclusive?

Everyone follows the same symptom/change trajectories?

# Healing contextually determined (Purgato et al., 2021, p. 4)

- Domains
  - Tailored and individualised approaches
  - Idiographic, longitudinal designs
  - Longitudinal qualitative methods
  - Participatory, translational research
-
