UWE REC REF No: HAS.21.10.019

17th March 2022

Charlene Thomson

Dear Charlene

Application title: Exploring the Aventine: An autoethnography on making sense of immersive daydreaming following developmental trauma

Thank you for responding to the conditions raised in my letter to you of 4th November 2021.

I can now confirm full ethics approval for your project, but please note that despite the easing of lockdown in England and across the devolved nations, you must continue to follow guidance as set by the UK Government and the relevant devolved administrations. If you have any questions about how this may affect starting your research project or for further information, please contact res.admin@uwe.ac.uk.

In the UK, face-to-face research and fieldwork can be undertaken but there should still be consideration of whether the activities could be delivered in an alternative way. There must still be appropriate mitigations related to Covid-19 risks included within risk assessments, including account taken of requirements from stakeholders.

From Tuesday 1 March, the moratorium on UWE Bristol international travel has been lifted and travellers are now able to request permission to travel through a new online approval process. All applications for international travel must follow the new process with bookings to be made in liaison with the Finance Services team through the University's designated travel management company. Please see the guidance at <https://intranet.uwe.ac.uk/tasks-guides/Guide/travelling-on-university-business>.

The following standard conditions apply to all research given ethical approval by a UWE Research Ethics Committee:

1. You must notify the relevant UWE Research Ethics Committee in advance if you wish to make significant amendments to the original application: these include any changes to the study protocol which have an ethical dimension. Please note that any changes approved by an external research ethics committee must also be communicated to the relevant UWE committee.
