

Appendix 2. 1. 1 Example code used with USGS DEM, GTOPO30.

Applied in order to display a figure of the chosen region

```
>Z = demdata.map;  
  refvec = demdata.maplegend;  
  figure  
  ax      =      worldmap      (ax,Z,      refvec,      'DisplayType',  
'texturemap');  
  axis off  
  demcmap(Z);
```
